Hi Frazer,

Of course , I have written the quote up onto headed paper. This is as accurate as I can get at this stage and with the information that we have .

With the remainder of the electrical install , please send over anything that you need help with . I'll be able to help you with this , a lot of people are spending time trying to get the pool open for the community and I would like to help too if I can.

Many thanks ,

Gareth White
